MAHMOOD-UL-HASSAN

Full-Stack Web Developer

Lahore, Pakistan | 0308-4386809 | mhassan43868@gmail.com

Portfolio | GitHub: Mahmood43868 | linkedin.com/in/mahmood-hassan43868

PROFESSIONAL SUMMARY

Computer Science graduate from UMT with hands-on experience building full-stack applications using React, Node.js, Django and SQL databases. Projects span inventory and production management, academy operations, web publishing and AI-assisted order automation. Delivered custom Shopify Liquid themes for remote clients. Seeking a Full-Stack Developer role building features from database to interface.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Python, C++, SQL

Frontend: React, Next.js, HTML5, CSS3, Tailwind CSS, responsive design, Shopify Liquid

Backend and AI: Node.js, Express, Django REST Framework, REST APIs, JWT, LangGraph, Gemini

Databases: PostgreSQL, MongoDB, Mongoose, Supabase, relational schema design

Tools and concepts: Git, GitHub, Docker, npm, Figma, OOP, data structures and algorithms

EXPERIENCE

Shopify Theme Developer | Freelance / Contract Feb 2026 - May 2026

Remote

- Developed and customized Shopify Liquid themes to translate client brand requirements into live storefronts.
- Built responsive sections with HTML, CSS and JavaScript; resolved theme defects and optimized asset loading.
- Gathered requirements directly from remote clients and delivered scheduled theme updates on time.

SELECTED PROJECTS

Bilal Glass Inventory | In development

React, TypeScript, Django REST Framework, PostgreSQL, Docker

- Built workflows for raw-glass imports, mirror production, reusable leftovers, finished stock, invoices and payments.
- Implemented transaction-based service logic with row locking and idempotency; added tests for workflows and concurrent inventory changes.

Insights Academy

React, Node.js, Express, MongoDB, JWT

- Built student enrollment, fee invoicing, payment history, test-report workflows and printable receipts.
- Implemented role-based access and a parent portal limited to linked children, with transaction-safe enrollment and database backup tools.

Blogify

Node.js, Express, MongoDB, Mongoose, EJS, JWT, Multer

- Built a blogging platform with cookie-based JWT authentication, bcrypt password hashing, post CRUD and cover-image uploads.

Order Automation System | University Final Year Project

Next.js, TypeScript, LangGraph, Gemini, Supabase, PostgreSQL, Capacitor

- Built an AI-assisted WhatsApp ordering workflow for English and Roman Urdu, with catalog search, stock reservations and human escalation.
- Connected a live order dashboard and driver assignment with a mobile delivery app supporting realtime updates and queued offline actions.

EDUCATION

BS Computer Science | University of Management and Technology, Lahore | 2022 - 2026

Intermediate ICS - Physics | Punjab Group of Colleges | 2018 - 2020
